## Please READ CAREFULLY

THIS is a supplementary list to my recent catalogue, from which I have selected, to my mind, the more choice and desirable alpines and rock plants, the majority of which are hardy in every section of the United States. If you have not received my regular catalogue, which contains much valuable information regarding the proper habitat, soil, exposure, etc., of these plants, it will be forwarded to you for the sum of twenty-five cents. It also gives the seasons of bloom, height, color, etc., and whether lime-loving plants

# Trade Discount 20% Orders \$10 to \$25 331/3% \$25 to \$100

= produce only the choicest and best stock that years of experience I have never offered better an I am offering this season.

onage highly, and wish you to know that I to keep your good will. I believe you will hare all two-year-old field-grown plants, with ts which I keep potted up), my selection of good as can possibly be offered by anyone, pay to others.

Non-warranty is a condition of all sales made. On account of the great number of causes of failure over which I could have no control, I can assume no responsibility after stock has left my nursery. I use only the most up-to-date methods of packing, for which I make no charge, but I am obliged to make it a custom not to accept any order under \$2.50. All orders will be sent out parcel post collect, and my new prices make it necessary that check or money order accompany order.

As it is necessary sometimes to substitute, I would appreciate it if a short list of other plants desired is sent with order, as I don't care to substitute unless authorized to do so, and it saves time and disappointment if a few extras are suggested.

ACANTHROPHYLLUM—Native of Greece, of Thrift family.  Spinosum—Very fragrant blooms in August\$	.50
ACHILLEA—Fine for rock walls, in warm location.	
Clavvenae—Lovely grey foliage, white flowers	.25

Sagittalis—Winged and jointed foliage, long season of yellow blooms	40
Schipkaensis—Dainty dwarf bushlets, white blooms	75
Tinctora—Upright broom, fourteen inches, yellow	
Tinctora flora plena—Very prostrate double form of the above	
Uralensis—Medium shrub for hot locations	
Versicolour—Flowers and lavender in June.	
GENTIANA—Well drained loamy soil, rather on rich side, and shade in some insta	
Acaulis—Favorite type, large, rich blue trumpets; this is sure blooming type	
Farreri—Rare Cambridge blue coloring, large plants, give limestone	
Lagodechiana—Smaller than Septemfida, constant bloomer	
Pyrenaica—Another good blooming type, good blue	
Septemfida—Reliable constant bloomer, very thrifty doer	35
Sino-Ornata - Rare Chinese Gentian, Wellsi type, very fine large sapphire	
trumpets, large two-year plants	
GERANIUM—Mostly requiring sunny situations.	10
	75
Argenteum—Delicate little gem, grey foliage, pale pink blossoms	
Sanguinarium, Lancastriense—Low growing prostrate form, clear pink blossoms	
Sanguinarium roseum—Lovely deep rose blooms	40
Patulum—Deep blue blossoms; choice for rock wall	75
Pylzowianum—North Thibet, dainty nodding pink blooms	
Walliachanum—Blue veined purple	
GEUM—Deep soil in sun or half shade; all are choice types.	10
	40
Borisll—Bright orange, on branching stem	
Fire Opal—Deep orange, new and choice	
Bulgaricum—Dark green foliage, orange-yellow	
Heldrichii—Orange-red flowers, from Greece	
Montanum—Puckered foliage, golden yellow blooms	40
Orange Queen—Striking bright orange with double flowers	
Princess Juliana—Large deep orange type, new and good	
GLOBULARIA—Fine rock wall or crevice plant.	00
	٥٣
Cordifolia—Twiggy type, lovely blue blossoms.	
GYPSOPHYLLA rosea—Choice pale pink type, very dainty	25
HELIANTHEMUM—Rock rose, for sunny situation in rock wall.	
Speciosa—Orange, large green foliage and large blossoms	25
Speciosa—Salmon, similar to above, large blooms	25
Single Yellow—Dark green foliage	
Double Yellow	
Double Orange	
Double Henna—Rust shade	
Ben Ledi—Lovely crimson lake coloringBen Nevis—Very good lemon yellow, dark rust center, very fine. These are	35
Ben Nevis—Verv 2000 lemon vellow dark rijst center verv fine 'l'hege are

MERIENSIA—Lovely continuous bloomer.
Echiodes—Sapphire blue, grey foliage, choice
Primuloides—Similar cobalt blue blossoms
OENOTHERA—Dwarf evening primrose, for warm sandy place.
Caespitosa—Delightfully fragrant, deep pink flowers
OMPHALODES—Likes half shady location.
Cappadocica (Cornifolia)—Handsome dwarf plant, grey foliage, bright blue
forget-me-not blossoms all summer
Verna—Early blooming type of above, good ground cover
ONOSMA—For warm location in rock wall.
Tauricum—Delightful fragrant lemon yellow blossoms
PENSTEMONS—Fine native western types, all choice.
Acuminatus—Grey foliage, gentian blue blossoms
Alpina—Grey-green foliage, gentian blue blossoms
Angustifolia—Choice Colorado penstemon blue
Barrettae—Dwarf from Oregon, grey foliage, ruby blooms
Fruticosa—Native shrub, dark green foliage, large lavender snapdragon bloom .2
Glabia—Large leafed and purple
Heterophyllus, "Blue Gem"—Choice type
Menziesii—Creeper, blue-lavender blossoms
Newberyii—Dwarf, lovely deep rose blooms
Device to the control of the control
Rupicola (true)—Grey leaves, ruby blooms
Rupicola Hybrid—Green foliage, deep ruby blooms
Scouleri, Lyalii—Lovely lavender blossoms, like large snapdragons
PHLOX—Native and subulata types that are good.
Adsurgens—From Columbia River Gorge, deep, glossy foliage, rare pink blooms .3
Like half shade.
Appleblossom—Dainty wee dwarf pale pink phlox, decidedly choice
Atropurpurea—Entirely new wine colored phlox, most delightful with blue
phlox Blue Hills
Blue Hills—Deep blue phlox, best of the blues
Diffusa—Choice deep lavender type, larger and very rare in cultivation
Diffusa—Pink form
G. F. Wilson—True type, large deep lavender
Nivalis—True white form
Speciosa No. 1, Carolina—Daintiest large flowered phlox, pale pink
Speciosa No. 2, Carolina—Large flowered, deep rose, dark center
Both types very dwarf.
Vivid—Very compact type, brilliant blossoms
POTENTILLA—Shrubby types that are fine for rock walls, or choice locations in rock
gardens.
Fruticosa Farreri—Imported type from China, large yellow blossoms on foot-
high shrub, choice
Fruticosa, Dasanhora—Grev silky foliage, large vellow blossoms, native
Fruticosa, Dasaphora—Grey silky foliage, large yellow blossoms, native
Mandschurica—Dwarf, small silvery leaves, white 1.00
Mandschurica—Dwarf, small silvery leaves, white
Mandschurica—Dwarf, small silvery leaves, white. 1.00 Vilmoriana—Choice silvery foliage, lemon-cream blossoms. 1.00 For many dwarf types, see catalogue.  PRIMULAS—Many Asiatic bog species, requiring part shade, and rich leafy soil, and in some instances, some moisture: The following, Beesiana, Bulleyana, Burmanica, Capitata, Mooreana Cashmeriana, Denticulata, Farinosa, Frondosa, etc., all at. 3.1 Types such as the choice Littoniana, Microdonta, Rosea grandiflora, atro-purpurea, Luteola, Chungensis, Conspersa, Paryli, Nutans, etc., fine large plants — 1.00 PULMONARIA—One of the earliest spring bloomers. Azurea—True type large azure blossoms. 2.20 Mrs. Moon—Deep rose flowers, spotted foliage, choice. 4.40 RAMONDIA Pyrenaica—Lovely large plants for shady place in perpendicular rock wall RANUNCULUS, Montanus—Lovely large blooms of clear yellow, on very dwarf stems. 4.40 RHODOENDRONS—Dwarf Chinese types, in particular; all are choice adjuncts in rock garden. Fastigiatum—Grey foliage, lovely plum blossoms, large plants. 1.50 Ferrugineum—Dark green foliage, pink blooms. 1.00 Keiskii—Japanese type, yellow blooms. 1.00 Racemosum—Dwarf prostrate type, with lovely apple blossom pink blooms, Dr. Rocks' choice type. 1.50 Schlipenbachia—Lovely pine flowering type, available plants about sixteen inches high, very sturdy 1.50 Schlipenbachia—Lovely pine flowering type, available plants about sixteen inches high, very sturdy 1.50 Schlipenbachia—Duotle lavender azalea type, particularly nice for rock gardens. 1.00 ROSA—Choice dwarf types for alpine gardens. 50 Folosia—Dwarf, large waxen white bloom 1.00 Nitida—Native sort with lovely bronze foliage, large, deep rose bloom 80 Rouletti—Particularly choice wee rose, much sought after, from Bulgaria;
Mandschurica—Dwarf, small silvery leaves, white. 1.00 Vilmoriana—Choice silvery foliage, lemon-cream blossoms. 1.00 For many dwarf types, see catalogue.  PRIMULAS—Many Asiatic bog species, requiring part shade, and rich leafy soil, and in some instances, some moisture: The following, Beesiana, Bulleyana, Burmanica, Capitata, Mooreana Cashmeriana, Denticulata, Farinosa, Frondosa, etc., all at. 3.1 Types such as the choice Littoniana, Microdonta, Rosea grandiflora, atro-purpurea, Luteola, Chungensis, Conspersa, Paryli, Nutans, etc., fine large plants — 1.00 PULMONARIA—One of the earliest spring bloomers.
